

# Plasma Physics and Controlled Fusion

Volume 57 Number 4 April 2015

## 17TH INTERNATIONAL CONGRESS ON PLASMA PHYSICS 2014

### PREFACE

- 040301 17th International Congress on Plasma Physics 2014**  
J T Mendonça and J Loureiro

### SPECIAL SECTION PAPERS

- 044001 Helical self-organization in 3D MHD modelling of fusion plasmas**  
D Bonfiglio, M Veranda, S Cappello, D F Escande and L Chacón
- 044002 Ion cyclotron emission from fusion-born ions in large tokamak plasmas: a brief review from JET and TFTR to ITER**  
R O Dendy and K G McClements
- 044003 Extensions and applications of the Bohm criterion**  
Scott D Baalrud, Brett Scheiner, Benjamin Yee, Matthew Hopkins and Edward Barnat
- 044004 Color path integral equation of state of the quark–gluon plasma at nonzero chemical potential**  
V S Filinov, M Bonitz, Yu B Ivanov, E-M Ilgenfritz and V E Fortov
- 044005 Efficient generation of fast neutrons by magnetized deuterons in an optimized deuterium gas-puff z-pinch**  
D Klir, A V Shishlov, V A Kokshenev, P Kubes, A Yu Labetsky, K Rezac, R K Cherdizov, J Cikhardt, B Cikhardtova, G N Dudkin, F I Fursov, A A Garapatsky, B M Kovalchuk, J Kravarik, N E Kurmaev, H Orcikova, V N Padalko, N A Ratakhin, O Sila, K Turek and V A Varlachev
- 044006 Nonlinear hydrodynamic Langmuir waves in fully degenerate relativistic plasma**  
F Haas and I Kourakis
- 044007 New concepts of transport physics in toroidal plasmas**  
K Ida
- 044008 Weak collisionless shocks in laser-plasmas**  
R A Cairns, R Bingham, R G M Trines and P Norreys
- 044009 Physics of the edge plasma and first wall in fusion devices: synergistic effects**  
S I Krasheninnikov, A Yu Pigarov and Wonjae Lee
- 044010 Simulation study of hysteresis in the gradient-flux relation in toroidal plasma turbulence**  
N Kasuya, S Sugita, S Inagaki, K Itoh, M Yagi and S-I Itoh
- 044011 Photon acceleration as a scattering process**  
J T Mendonça and R Bingham

### PAPERS

- 045001 Effect of tungsten off-axis accumulation on neutral beam deposition in JET rotating plasmas**  
T Koskela, M Romanelli, P Belo, O Asunta, S Sipilä, M O'Mullane, L Giacomelli, S Conroy, P Mantica, M Valisa, C Angioni, T Kurki-Suonio and JET-EFDA contributors
- 045002 Intrinsic rotation in tokamaks: theory**  
Felix I Parra and Michael Barnes
- 045003 Modeling of non-axisymmetric magnetic perturbations in tokamaks**  
Y Sun, Y Liang, J Qian, B Shen and B Wan
- 045004 Chaotic density fluctuations in L-mode plasmas of the DIII-D tokamak**  
J E Maggs, T L Rhodes and G J Morales
