Front cover: **BOVD BARK'S KILBYN SP FACTORY 2010 ACHIEVES QUALITY**  
Boyd Bryon Architects have long become industry experts in designing and delivering Advanced Manufacturing Research Centres nationally, so when the firm won the project in January 2013 the brief and dream was to design a circular factory, a concept first created for the ARAC in 2006, but not achievable at that time due to budget and programme restraints.
