

# A PRODUCTION OF 3D INTERIOR DESIGN ANIMATION

Prepared by: Vinna Septini

## ABSTRACT

---

This project addresses issues on a production of 3D Interior Design animation. It focuses on the development or design of Classis Interior Design and Contemporary Interior Design. The project sought solutions on how to come out with a good design of a house. Through this project, the customers have a preview on how a modern home looks like and they can make a decision for the design of their house. Besides that, this project also can serve as a presentation for selling the house. The project is targeted to attract potential house buyers and to give them thought idea about how the class interior design and contemporary interior design looks like. This project researches methods, technique on creating the 3D Interior Design animation. The project comes with an animation of each object. Ultimately, this project aims to solve the difficulties of selling the house and to solve the misunderstanding on the classis interior and contemporary interior design.
