A PRODUCTION OF AN ANIMATED MOVIE ENTITLED 'TROLL' BY USING 3D ANIMATION WITH IMPLEMENTATION OF MAXSCRIPT

Prepared by: Wong Kee Sen

ABSTRACT

The aim of the project is to conduct a research on various methods and techniques of 3D modeling, animation, and Maxscript. This project is to produce a short animation movie entitled "Troll" that describes a fairy tales story in the character and its surroundings. This movie basically will present the concept of creativity, humorous characteristic of the creature. In the final production, various techniques of the video editing tools will be investigated. A study on choosing the appropriate tools and compression techniques would be conducted in the project.
