

# **STUDY AND IMPLEMENTATION OF 3D ANIMATION MOVIE ENTITLED 'MR.WILSON AND ME'**

Prepared by: Fong Luen Kee

## **ABSTRACT**

---

This project aims to combine the 3D and video editing technique to produce an animated movie. The story is about a person who can communicate with his basketball named Wilson. A study will be conducted on 3d and video editing techniques. Besides that, 3d techniques will be studies such as modeling, mapping, sequence and also some special effects for the video editing. This project aim is to produce an interesting movie to audience and also help developer to understand and learn to use the selected software
