IMPLEMENTATION OF AN ARTIFICIAL INTELLIGENCE DIGITAL MAP IN INTI COLLEGE MALAYSIA TO ENHANCE AND IMPROVE THE ABILITY TO EXPLORE THE SURROUNDINGS PHYSICAL ENVIRONMENT

Prepared by: Ooi Ee Theng

ABSTRACT

Digital map is a dynamic map to help users to locate the rooms and the surroundings of INTI College Malaysia. Most of the time, users are unaware of how to search for any destination. Therefore, it is rather difficult to find the exact location especially when the campus is huge. This digital map has the ability to assist users to find their way towards the intended target. It can also provide users with the shortest path towards the target location and save time. When users click to the desired destination, the system will show the picture of the location. It will also provide the shortest way to the location.
