

CLUB AND SOCIETY MULTIMEDIA INFORMATION SYSTEM FOR INTI COLLEGE MALAYSIA

Prepared by: Lee Chieh Yuan

ABSTRACT

This project concern with developing a multimedia system that provides the information to user about the all INTI College Malaysia's Clubs and Societies. The information that can be found inside the system includes the Club names, Organization Chart, Activity and etc. this system will provide useful information to all INTIANS and staffs, especially those who are new in INTI College Malaysia. This will give them information so that they can decide which club or society to join during their leisure hours. This also will help the Club and Society to promote their club through this multimedia system and get more members through this system.
