

WEB-BASED ONE-STOP CENTER FOR INTI COLLEGE MALAYSIA

Prepared by: Lim Hooi Sin

ABSTRACT

This project is aimed to develop a prototype search engine in a web based one-stop center for INTI College. The nature, feature and operation of the search engine will be studied in order to achieve the function of the search engine. This center will help students to search information in systematic way and the search result is more related to their courses. Other than that, outside people will also be allowed to access this center. This center will also provide reference book titles and online past year exam question for revision.
