

# **A DETAILED STUDY IN VISUAL BASIC SCRIPT TO PRODUCE AN ONLINE CAR CATALOG**

Prepared by: Wong Kok Leong

## **ABSTRACT**

---

This project aims to produce an online application to support on the study. The author main intention is this special study project is to learn more on VB Script because it is a scripting language use to produce and design web pages, and from there, produce an online car catalog. As mentioned, the car catalog produce will be as a supporting product for the detailed study and not for producing a homepage for the car company to promote on the cars. The entire project begins by doing the investigation phase in order to investigate and gathered relevant information about the project title. An overall explanation on what have accomplished in all the ten objectives will be included in this report.
