

# **IMPLEMENTATION OF AN ONLINE E-GARAGE IN INTRODUCING CAR BODY KITS USING 2D GRAPHICS**

Prepared by: Seng Chin Kai

## **ABSTRACT**

---

This document is developed for audiences and readers to find and know the process that is done regarding the online system where it shows all the information about car accessories such as steel wheel, steering, spoiler, and so on. The information are such as price, description and so on. The most important information is the image because the entire images were created by the author himself. This documentation includes reports from phase 1 to 4 and then the system was burned in a CD.
