

# **STUDY AND DEVELOPMENT OF AN ONLINE MULTIMEDIA E-COMMUNITY FOR GRAPHICS DESIGNER AROUND MALAYSIA**

Prepared by: Lua Chia Boon

## **ABSTRACT**

---

Online e-community has been implemented in the Internet for a long time. Nowadays, there are many people using the e-community for different purposes, some for education and some for their own interest. E-community helps to keep people with the same interest to connect to each other. It allows people to share information such as text, graphics, video as well as audio elements online. This report is to provide detailed information regarding to the project title. In this report, the author has included all the research and analysis that was made through the whole process of the project development. Each research and analysis is categorized into chapters.
