

CASE STUDY INTO THE CONSTRUCTION AND COMPLETION OF HARD AND SOFT LANDSCAPE WORKS IN A HOUSING DEVELOPMENT IN KUALA LUMPUR

Prepared by: Ng Qing Hui

ABSTRACT

Landscaping has become more vital in the world especially Malaysia, a Tropical Country. Since 20 years ago, our ex. Prime Minister Dr. Mohamad Mahatir who has laid a strong emphasis on the exploration of landscaping, and with his idea and encouragement, Suria Kuala Lumpur Conventional Centre (KLCC), Kuala Lumpur International Airport (KLIA), Shah Alam Botanical Park have been established and completed in aesthetic and pleasant look with the intersperse of landscaping. The reason he focus on this part is due to the importance and need to protect and reduce the hazardous sabotages in our natural environment.

Although, landscape is consider small scale in contrast with building work, the scale of benefit of landscape contribute to all of us is exactly the same as the benefit of building.
