

A STUDY INTO DESIGN AND LANDSCAPING WORK TO INTI INTERNATIONAL UNIVERSITY WHICH IS LOCATED AT HOSTEL NEARBY AND INTRODUCE A CONCEPT OF “GARDEN AVENUE INCLUDING WITH COSTING”

Prepared by: Yeaw Zhi Jun

ABSTRACT

In this project, I have to study into the design and landscaping work to Inti International University which is located at hostel nearby and introduce a concept of “Garden Avenue” including with costing. Since my project mainly focus on landscaping, thus soft landscape which is trees and shrubs cannot be take for granted, since the soft landscapes is also an important features and is necessary for every landscaping design, it does not need to be even and according to order, but to provide fresh air and enhance the beauty features for the landscape. Same goes to the hard landscapes which form a type of facilities and decoration for the area. Without this soft and hard landscape design, the area will be boring and dull.

Also the rules and regulations for landscaping work must take note so that we can provide better design and provide healthier facilities to the landscaping design. I also required preparing the Bills of Quantities and Taking off to my project.

Abstract

- Study the soft and hard landscaping work
- Prepare Bills of Quantities and taking off
- Build model of landscaping work
- Get to know the rules of regulations and aspects of landscaping project.
- Able to present well based on work done

Learning Outcome

- Able to know the different between soft and hard landscape
- Able to understand how to measure and calculate the pricing of the soft and hard landscape
- Able to do taking off and Bills of Quantities
- Able to build a model based on the landscaping title
- Able to understand the importance of the soft and hard landscape
