

A STUDY OF DIFFERENT FINANCE MAINTENANCE OF HEAVY MACHINERIES IN CONSTRUCTION

Prepared by: Wong Siew Thung

ABSTRACT

As my title a study of different finance agreement, insurance and maintenance of heavy machineries in construction, I would like to explain the relevant information about the heavy machineries.

First, I will introduce types of heavy, machineries that I used in my final project. Then, I will explain the few types of finance agreement that common used in the construction industry following by the quotation if the heavy machineries. The various maintenance methods will show in my project to learn about the heavy machineries.

In addition, the insurance and the safety issues of the heavy machineries will be shown in my project as well. I also will provide the relevant photo to make my project more interesting and colorful.

Lastly, I will show some act which related to my project from ACT 139 FACTORIES AND MACHINERY ACT 1967 (REVISED-1974) that I download from National Institute of Occupational Safety and Health (NIOSH).
