

A STUDY INTO THE DESIGN AND COST ESTIMATION TO UPGRADE EXISTING LANDSCAPING WORK TO A PUBLIC RECREATION AREA IN JOHOR

Prepared by: Ng Yit Zhou

ABSTRACT

As the title, A Study into the Design and Cost Estimation to Upgrade Existing Landscaping Work to a Public Recreation Area in Johor. I would to explain some information about the landscapes.

In this project, I will state the definition of landscapes and differentiate the types of landscapes. To study into the existing park in Batu Pahat – ‘Tasik Y’, is required. I also have to propose a new landscaping design to the existing park. At the end, I have to build up the B.Q and rates for all the landscaping work.

The briefly objectives are:

- Definition of hard and soft landscape
- To study into the existing park in Batu Pahat
- To propose a new landscaping design to the existing park
- Build up B.Q. and rates for all the landscaping work.
