

PREPARE A BILL OF QUANTITIES AND COSTING FOR THE BRICKWORKS, DOORS AND WINDOWS WITH ALL THE FINISHED FOR FLOORS, WALLS, CEILINGS, AND SANITARY FITTING FOR THE CONSTRUCTION OF A SHOP LOT

Prepared by: Chen Kok Wai

ABSTRACT

The abstract for my final project are study about architectural work and measure quantity and costing about the shop lots. Besides that, I need to **prepare a Bill of Quantities and Costing for the Brickworks, Doors and Windows with All the Finished for Floors, Walls, Ceilings, And Sanitary Fitting for the Construction of a Shop Lot**. Moreover, I should be build a model and prepare poster about processing of the brickwork for my poster presentation. I can able to prepare bills of quantity, build model, and do poster presentation. Furthermore, I know about material cost and rate of labor will affect the total cost for the project.
