

# COMPUTERIZED BAGGAGE HANDLING SYSTEMS FOR AIRPORTS

Prepared by: Krishnavehni Sarmugam, Kathleen Ong, Tan Tiong Hin, Yee Sze Shiun

## ABSTRACT

---

The objective of this report is to make the students familiar with the research, analysis and design on a given title based on the knowledge that they have gained so far.

‘Computerized Baggage Handling Systems for Airports’ is our title. We are required to design a prototype of a complete baggage handling system for airports. Our design can be divided into 3 major categories as follows:-

- I. Electronic
- II. Mechanical
- III. Software
