

DESIGN OF AN OPEN SHED TO COVER THE BASKETBALL COURT AT ICM

Prepared by: Ong Chong Yeow

ABSTRACT

In fact, this report covers all the design procedure and some part of analysis, especially, analysis truss. Moreover, introduction is illustrated and introduced a basic concept of materials used in designing of an open shed. In the main body, design procedure is done in step by step and some of the important tables are tabulated. All the results are obviously shown on the calculation portion. Conclusion is a part of summarizing the process of the design. Reference is a list of book's name that was used as a tool to accomplish my project.
