

ANALYSIS IN CABLE-STAYED AND STATIC CABLE-SUSPENDED BRIDGE

Prepared by: Chiang Wai Chan

ABSTRACT

In my analysis, 'ANALYSIS IN CABLE-STAYED AND STATIC CABLE-SUSPENDED BRIDGE', I will lead you to the use of these 2 different types of cable in bridge structures through their structural behavior, shape of cable under different loading conditions and their economical with respect to the changes of angles and lengths. But before that, I will brief you on the general knowledge of the cable-stayed and cable suspended bridge.
