

COMPUTER CONTROLLED CHRISTMAS LIGHT SHOW

Prepared by: Julie Nyam Hui Hui

ABSTRACT

In this documentation, I had completely written all the information regarding the Computer-Controlled Christmas Light. I had gathered all the relevant information in this documentation and composed in a form that enable user to get more information. This project report totally represents my individual idea, knowledge and as well as the result that I obtained after gone through some research and analysis work during this period.

Actually, this report is basically focused on the body of the project, the introduction becomes the part that I used to intro my project title I had included the list of component and also used to elaborate each of the components. I also briefly introduce the operation of the system. This will be follow by the objectives and block diagram.
