

CONTROLLING CAR SPEED

Prepared by: Bernard Jansz

ABSTRACT

This project report is partitioned into several chapters that are arranged in such: Project Title on the Main Page, Acknowledgement, Declaration, Contents, List of Illustrations, List of Photographic Plates, the Body of the report, Conclusion, Reference and Appendix.

The body of the report is the detailed of my project. It will explain the main purpose or outcome of the project and the process of constructing this project. In this session, it will also briefly explain the functions of the components and the circuit flow of this project. The design of the circuit on PCB also will be included in this session.
