

COMPUTER OPERATED DISCO LIGHT

Prepared by: J. Suresh Kumaran

ABSTRACT

Basically this project report consists of pictures, flowchart, circuit design, programmers and theories behind this Computer Operated Disco Lights. It will be discussing on how:-

- 1) Pictures of the project
- 2) A simple flowchart on the project works
- 3) A simple flowchart on the circuit works
- 4) Circuit design
- 5) Programs used
- 6) How the circuit works
- 7) Theories of the circuit design

There also will be discussion on the usage of the Computer Operated Disco Light and how dies the project works together with light, computer and a controller box. A discussion about how the printer port output is being used.
