

# **AUTOMATIC TEMPERATURE CONTROLLED FAN**

Prepared by: Lau Kok Siong

## **ABSTRACT**

---

This project paper will fully describe the 'AUTOMATIC TEMPERATURE CONTROLLED FAN'. First of all, the objectives of doing this project and the introduction of 'AUTOMATIC TEMPERATURE CONTROLLED FAN' will be stated. Then, the general function of components that are used in the circuit and circuit description will be described. After this, the circuit analysis and construction will be stated. Finally, the alternatives of doing this project and advantages will be discussed. Some diagrams will be shown to help the understanding about this project.
