

# **AUTOMATIC CURTAIN WINDER AND INFRA-RED REMOTE CONTROL**

Prepared by: Looi Kim Kong

## **ABSTRACT**

---

In this final report, I will introduce the construction of the automatic curtain winder and infra-red remote control. In this report, you should be able to know the basic circuit operation of the automatic curtain winder and infra-red remote control. You can also know more detail general operation of my project.

I also show the circuit diagram and the block diagram of the automatic curtain winder and infra-red control. Therefore, you will be able to know more detail about my final project. Component that require for this project and IC data sheet also include this final report.
