

# CAR ANTI-THEFT ALARM SYSTEM

Prepared by: Lim Joon Eu

## ABSTRACT

---

For the following part of the report, I will explain the internal operation, function, and other details to give a clearer view about my project. I have divided my project report to several sections. By reading through, you will be able to understand what I have done and the principle behind step by step. Besides, I also included some circuit diagram to help readers to understand the principle faster. For further information, readers can refer to page which I have included the Internet links, reference book, magazines and other sources.
