

# VOICE RECORDING BOARD

Prepared by: Lim Kua Chany

## ABSTRACT

---

This is a project to show how human voice can be recorded with the simple but powerful non-volatile board, the voice recording board. Now, there is the question of how this board can record and replay the human's voice. Then you must go through this project report and you will find out the answer satisfactory.

Finally, I have made my conclusion of this project. Moreover, you can refer some data and information about this project in the list of references and appendices.
