

INFOCARD SYSTEM

Prepared by: Foo Sian Lin

ABSTRACT

As time flies, the technology is booming ahead, the improvement of the technology is change the human life become more easy and convenient. The InfoCard system has been around for many years and it is become as common as we can see. For example, the ATM card system and the supermarket barcode system also base of the basic theory of the InfoCard system. InfoCard system is basically an electronic identification system; it can be used with multi applications, like security purpose, data recorder system, identification system and how you see it, is just limited in your imagination.
