

# **AUTOMATIC FAN SPEED CONTROLLED**

Prepared by: Jackson Lee Ming Hsia

## **ABSTRACT**

---

This final report is contains many parts of the description of my title project: 'The Automatic Fan Speed Controlled'.

First of all, we are dealing with the circuit diagram and components that required in this project. This will let the readers know what's the component should be use in this project. Follow by the block diagram that explains how's the circuit function and of course I will explain of each part of the component in detail. We also to analysis the whole circuit and discusses the theory that need to apply on this project.

Lastly with the conclusion, bibliography, and appendix.
