

# ALTERNATIVE COURTESY LIGHT CONTROLLER

Prepared by: Ong Chuan Teng

## ABSTRACT

---

For my project include two part of the diagram. One for the circuit diagram, another one is Schemation wiring diagram. This is for wiring the unit into the vehicles.

These two diagrams will should the working of the ‘Alternative Courtesy Light Controller’. This project will fully describe the ‘‘Alternative Courtesy Light Controller’ which I am constructing and also the operation of this system.

About components, I already have been introduced their functions and data sheets on this project which I am discuss it. Into the whole results that I already put in this project. At last, a few of alternative, advantages, application and difficulties. These whole things I am writing down and encountered in this project.
