

# **EFFICIENT BUILDING CONTROL SYSTEM**

Prepared by: Seow Cheen Wai

## **ABSTRACT**

---

My project report consists of several parts. There are introduction, advantages and application, analysis, construction, outcome, difficulties and solutions. This project report discuss in more detail about building control system.

Firstly I will introduce the scope of this project and its objectives in my introduction part. Besides, I will explain its advantages and applications also included a full circuit diagram, PLC function chart and photo.
