

WIRELESS KARAOKE

Prepared by: Seah Vun Hsiung

ABSTRACT

Have you ever wonder to move around while singing the karaoke in front of your PC? Wonder no more and now you can build your own wireless karaoke at home without sending a huge sum of money to buy a wireless karaoke set.

In this project, I will build me own wireless karaoke set with the cost of as low as possible. You will find all the useful information about this project in this report. Explanation on how this wireless karaoke set works will be clarified. Explanation will be done with the aid of block diagrams as well for easier understanding.

This report is intended to be complete information of my project for the readers. It contents sources, process, circuit diagrams, and other building block diagrams of Wireless Karaoke Set. I have provided a description of the Wireless Karaoke and how a Wireless Karaoke set may be used to implement communication system concept, such as AM signal.

In order to obtain a more accurate result, calculations are needed by using some mathematics formulas. Some data sheet or appendix is referred to help in the calculations. The data sheet will be shown in the appendix.
