

ERGONOMIC DESIGN SECRETARIAL WORK TABLE & CHAIR

Prepared by: Lai Mei Yun

ABSTRACT

This report basically introduces ergonomics theories and how to apply ergonomics theories in design. The traditional chair may be the source of back, neck and wrist pain. Stressful not only limits your productivity but is the seed of future problem, so in my new design will solve these problems. Secretary settling a lot of file and paper in every day; in my new design secretarial table has enough space to put the equipment. Adjustable is the coming feature of table and chair, adjustment can conform to every user's size.
