

# ERGONOMIC DESIGN OF BI-FUNCTIONAL BABY SEAT

Prepared by: Fendy Tioe

## ABSTRACT

---

Basically the project that I chose is about designing a BI-Functional Baby Seat by Applying the Ergonomic or Human Factors approaches. From the words BI-Functional, which means 2 functions, we can see that actually I am design a baby seat, which has 2 functions. They are baby car and baby stroller. The procedures will be discussed later in the body.
