

# REDESIGN THE PORTABLE TROLLEY

Prepared by: Low Kok Beng

## ABSTRACT

---

Currently, I am in final semester of DIE. This semester, we are assigned a project. Duration of this project is one semester, about 14 weeks, and it is one of subject in final semester. Each student has his or her own project supervisor; his or her title is given by their project supervisor. Function of the supervisor is to help and guide the student to complete their project.

I have assigned to redesign the Portable Trolley that used for lecturer to move large amount of books. I hope this design can help lecturer or student in future.
