

A COMBINATION COMB, WHICH DISPENSES STYLING AGENT

Prepared by: Lim Kian Soon

ABSTRACT

My project title is 'A Combination Comb, Which Dispenses Styling Agent'. The main objective of this hand tool is to combine the styling agent together with the comb. This will help the user does use their hand to rub the styling agent on the hair and then comb. During process the project, I have to carry out the research and analysis on how my comb works. Furthermore, I need to find out what type of material suitable use in my design. Besides, I also needed to consider about the standard dimension of my design, the method to assembly my design, safety to use and other important guidelines.
