

# DESIGN A 2 IN 1 TOOTHBRUSH WITH TOOTHPASTE HOLDER

Prepared by: Yow Jet Ling

## ABSTRACT

---

This report contains information and data about a design of a 2 in 1 toothbrush with toothpaste holder. The purpose of the design is to enable users to conveniently carry toothbrushes during traveling.

This report includes the design of the ejecting mechanism, the mechanism to hygienically protect the unused toothpaste and, design of cartridge and the ergonomic design of the toothbrush. Other than that, the advantages and disadvantages between conventional toothbrush and 2 in 1 toothbrush with toothpaste holder will be shown clearly. There are some final drawings of product can be seen clearly in this report.
