

# **DESIGN AND FABRICATION THE FLEXIBLE SKIRT OF A HOVERCRAFT**

Prepared by: Tan Hann Keat

## **ABSTRACT**

---

My project title is 'Design and Fabrication the Flexible Skirt of a Hovercraft'. In my final report, I will design the hovercraft with the concept of the fluid mechanic, the flow or air cushion. In my design, I will bring out the research and analysis on how my model product will be made based on the theory of the hovercraft.
