

REDESIGN A SIMPLIFIED OFFICE DESK FOR PRODUCTION

Prepared by: Ngan Ze Hong

ABSTRACT

This project is a stand-alone project as a subject in the 6th semester of the DIE course. The topic of this project is simplifying the design of an existing office desk for production, which means, redesigning the office desk in the context of simplification. The objective of the investigation is to find out and identify the potential for change and redesign in order to produce a better product based on ergonomics, ease of production and ease of assembly on site.
