

PROJECT MANAGEMENT

Prepared by: Sam Yen Nee

ABSTRACT

This project is concerned with this Project Management. Project Management involves Critical Path Method (**CPM**), and Project Evaluation and Review Techniques (**PERT**) for planning, scheduling, and controlling. This project will use the technique of CPM. This project will be carried out by using **VB Programming**. VB Programming contains all the tools you need to build a powerful program for Window quickly and efficiency. The program will let the user key in the relevant data, and it will calculate all the result for user. The user will reduce time for all complicate calculations.
