

# **LIGHT BULB CHANGERS**

Prepared by: Yap Kok Chin

## **ABSTRACT**

---

This report contains the work that I have done for my project, which lasted a span of about 4 months. During which I managed to have a good understanding of the mechanical thoughts, solutions, and theories used during the manufacturing of the light bulb changer that was used in this project. As the project title implies, the main purpose of the project is to design a light bulb changer.
