

# **3D MODEL OF A FACE F A WELL-KNOWN PERSONALITY**

Prepared by: Choo Juan Wah

## **ABSTRACT**

---

This project concerns with the designing of a 3 dimensional face o a person in AutoCAD. Model design with AutoCAD can be used with Computer Numerical Control machines, which are used in manufacturing in many big factories. Here is this dissertation, we show that how is it possible to model the 3D face using AutoCAD Release 14. It will slightly harder for those without AutoCAD knowledge to understand the contents of this dissertation. Thank you.
