

# **AIR CUSHION CATAMARAN**

Prepared by: Azhar Hussain

## **ABSTRACT**

---

The main purpose of this project report is to provide overall basic and main information of the Air Cushion Catamaran model.

This project report starts with the list of illustrations on lift fan, propeller, 2 views of the outcome model and a diagram showing the principle of air cushion's function. This diagram is taken from a project student who did his project on hovercraft.
