

OPERATING FOOD WARMER THROUGH ENGINES' HEAT

Prepared by: Lean Choon Hau

ABSTRACT

To design a Food Warmer from engine's heat is a challenge title, however in the progress would face a lot of problems. The project paper illustrates about the idea Food Warmer from Engine's Heat. This Food Warmer will increase the efficiency of keep the using the heat from car engine. In the report, one will know:

1. Purposes of creating the Food Warmer from engine's heat
2. Function of the Food Warmer
3. Outcome of the Food Warmer
4. Outlook of the Food Warmer
5. Materials used for constructing the Food Warmer
6. Theory applied to the Food Warmer
