

# **MECHANICAL ROLLER COASTER**

Prepared by: Kwong Fook Meng

## **ABSTRACT**

---

The objectives of this project are to understand clearly what is meant by the title and then build a prototype that is based on the project title. My project title is a Mechanical Roller Coaster.

First, I will introduce the project title. There will be a brief introduction on the roller coaster as well as how it operates in the following chapter.

Second, construction of the prototype will be discussed.

Lastly, the conclusion of whole project report. Further development for the prototype will be discussed as well in the chapter.
