

DESIGNING A WATER SPRINKLER FOR A RECTANGULAR LAWN

Prepared by: Leow Fook Kong

ABSTRACT

By reading this report you will get know more about a water sprinkler. Besides, you will also get t know the specification of my project, how it works, what is it usage and its objectives. I also clearly described what engineering methods I applied to design this sprinkle. Inside this booklet there are also some illustrations of the planned outcome and the actual outcome of my project. There are also comments and recommendations for further work to be carried out where appropriate. The references I have used and the web sites I have visited also stated inside.
