

DESIGN AN ELECTRIC MACHINE THAT BLOWING AND VACUUMING LEAF IN ONE MACHINE

Prepared by: Tan Lean Yee

ABSTRACT

Image a machine that can replace the tiresome work of cleaning the leaf in the gardens @ yards with a rake or broom. Now I would like to introduce you the machine that can do so it is a 2 in a1 machine which is known as the electric blower and vacuum that have a powerful blowing and vacuuming operation in one machine. It is also suitable to be used by male or female because it is hand held with easy operate and quite light. With this machine it will make work noticeable easier and save a considerable amount of time.
