

DESIGN OF AN INDICATOR TO FIND FREE PARKING LOTS

Prepared by: Wong Chiew Khuen

ABSTRACT

As the project title implied, the main purpose of the project is to design a mechanical indicator work with fluid. Usually, drivers need to try their luck in a huge parking basement to search an empty space that causes lots of troublesome all the drivers. Now, with these indicators located at each entrance of the row of the parking space. It indicated driver more specifically of the spaces. So, drivers can easily identify which row still available for spaces. As a whole, it saves time and traffic problems in the parking basement.
