

# CONVEYOR TROLLEY

Prepared by: Lee Chee Woei

## ABSTRACT

---

The conveyor trolley is design based on the principle and concept of the trolley and conveyor belt. But, what will happen with combined of 2 of the different devices. Is the new device still maintains the original function?

This report is explained fully the technical or engineering analysis done on this project as well as the design aspect of the conveyor trolley. The outcome of the conveyor trolley is shown inside the report.
