

# **AN EGG-CRACKING MACHINE**

Prepared by: Tjoeng Agus Santoso

## **ABSTRACT**

---

Designing An Egg-Cracking Machine is the title of my final project. In this project, I have convert from manually (use our hand) into machine (use mechanical parts). So, I must apply engineering principles that can do/work, as I want. Considering types of material will be used, also take a part in this design (such as cheapest, hygiene's and safety)
