

AN AUTOMATED CAT/DOG CARING SYSTEM

Prepared by: Khairuddin Wijaya

ABSTRACT

My title is about automated cat/dog caring system. It is a system for domesticated cats/dogs when owners for on short holidays or in instances when owners cannot bring their pets along on shopping, then this system will be useful.

Sometimes, you have to go away for a day or two days and you have to leave your pet at home, this will help you with the meals. This product is designed to feed one/two cats, kittens or small dogs. Food is kept fresh in easy clean compartment sealed by closely lid. Just set the timer at required time. This feeder will run automatically to feed out pets.
